

I have been a satellite radio customer over 1 1/2 years and it is like having cable in the car. It's good to actually hear music as opposed to commercials your whole trip to work. I feel the price I pay for it is well worth it and it is probably the best thing that's happened to radio. It's always crystal clear. You don't have to worry about trying to find a station similar to what your listening to when you go out of state. And the radio jockeys are actually very entertaining. Please think twice about the decision.
